INDEX

A

Address in commemoration of I. Minis Hays, *iii*
Alaska and its vegetation, xv
Allen, Charles E., transmission of the vegetative character in *Sphaerocarpus*, 83, vii
Allotrophy of germanic oxide, studies on, 183
Ames, Herman V., elected councillor, xii
Arabs, study of, 322
Asia, peopling of, in light of new evidence, xiii
Atom, artificial disintegrability of, discovery of, 74
excited, discovery of, 73
nucleus, discovery of, 70
relativity inside of, discovery of, 74
Atomic numbers, discovery of, 71
volcanism, universal, Millikan cosmic rays and, 161
ultimate atom and, 170, xi
Aviation, modern, Samuel Pierpont Langley and, 75, xiv
Aztecs and their predecessors in the valley of Mexico, 245, xiv

B

Barton, George A., present status of Hittite problem, 232, ix
Bauer, Louis A., what are the causes of the earth's magnetic storms?, x
Bazett, Henry C., temperature sensations, 131, viii
Behavior, development of, growth of functional neurones in relation to, 51
pattern, early, and its anatomical explanation, 51
Berbers, study of, 322
Blakeslee, Albert F., mutations in a haploid (In) datura and their bearing on the theory of hybrid origin of mutants, vii
Brain cast of *Pithecanthropus*, exhibition of, v
Brown, Ernest W., some results of the eclipse of 1925, x
Brush, Charles F., discussion of the kinetic theory of gravitation III., 207, x
Bryant, William L., on the structure of *Palæaspis* and on the occurrence in the United States of fossil fishes belonging to the family Pteraspidæ, 256, xiii
Buddington, A. F., geology of Southeastern Alaska, xii

C

Campbell, William W., elected vice-president, xi
Carbon dioxide, melting-point of germanium in, 22
Carson, Hampton L., address in commemoration of I. Minis Hays, *iii*
Central America, mixed types of, study of, 323
Chemical reactions, mechanism of, 90
Coghill, G. E., growth of function neurones and its relation to the development of behavior, 51, ix
Coral in reef-formation, 136
Cosmic rays, Millikan, universal atomic volcanism and, 161
spectrum of, prediction of, 379
Coulter, John M., research at the Boyce Thompson Institute, vii
Councillors elected, xii
Cross, Whitman, elected councillor, xii
Crystal structures, discovery of, 71
Culture problems in northeastern North America, 272
Curator elected, xi
Cyathaspis van ingeni Sp. Nov. 269
Cyathaspis Wardelli Ruedemann, 266

D

Davis, Bradley Moore, history of *Œnothera biennis* Linnæus, *Œnothera grandiflora* Solander and *Œnothera Lamarckiana* of de Vries in England, 349, vii
Dennis, Louis M., germanium, x
Dercum, Francis X., elected vice-president, xi

E

Earth, peopling of, 150
Earth's crust, rocks of, average composition of, 125
magnetic storms, causes of, x
Eclipse of 1925, flash spectrum observed at, 99
some results of, x

Egypt, peoples of, study of, 323
Electrical engineering, equiangular spiral polygons as presenting themselves in, 326 xi
Electron, discovery of, 69
free, discovery that the law of conservation of momentum is applicable to the encounter between a light quant and, 76
Electrons, conduction, discovery of new properties in, 75
Eskimo and Athapascan correspondences with the northeast, 292
Ether wave, single monochromatic, discovery of the summation of two or more quantum jumps into, 76
invisible, discovery of new experimental technique for seeing, 75
Excited atom, discovery of, 73

F

Field, R. M., proposed railroad summer school of geology of Princeton, University, xiii
Finance committee, report of, viii
Finns, study of, 321
Fishes, fossil, belonging to family Pteraspidæ, 256
Flash spectrum observed at the 1925 eclipse, 99
Fossil fishes belonging to family Pteraspidæ, 256
Frankliniana, presentation of, vi
Functional neurones, growth of, integrity of organism and, 52
its relation to development of behavior and, 51, ix

G

Garigue, Mediterranean, 56, viii
Germanium, x
dioxide, reduction of, in hydrogen, 18
metallic, formation of metallic mirrors by heating in vacuo, 22
graphic examination of, 26
hydrogen contained in, 20
melting-point of, in carbon dioxide, 22
preparation of, studies in, 15
oxide, 25
allotrophy of, studies in, 183
alpha form of, solubility of, 150
densities of, 191
Germanium oxide, x-ray spectroscopic examination of, 193
Glacial stages, pleistocene, 105, xii
Goodspeed, Arthur W., elected secretary, xi
Graham, A. Kenneth, further studies on the preparation of metallic germanium and the volatility of the metal in hydrogen and in vacuo, 15
Gravitation, kinetic theory of, 207
waves and heat, 211
Growth and learning, 54

H

Harshberger, John W., Alaska and its vegetation, xv
Mediterranean garigue and macchia, 56 viii
Haupt, Paul, Christ's entry in Jerusalem, ix
Hawaiians, pure and mixed, study of, 316
Hays, I. Minis, obituary of *iii*, vi
Hess, Alfred F., newer knowledge of the physiological action of ultraviolet rays, 202, ix
Hittite problem, present status of, 232
Hobbs, William H., Greenland expedition of University of Michigan, ix
Hooton, Earnest A., progress in the study of race mixtures with special reference to work carried on at Harvard University, 312, xiii
Hrdlička, Aleš, people of the main American cultures, 157, xiii
of Asia in the light of new evidence, xiii
of the earth, 150
Hydrogen, reduction of germanium dioxide in, 18
volatility of germanium in, studies on, 15

I

Iron meteorites, average composition of, 124
gases in, 123
Isotopes, discovery of, 73

J

Johnson, Douglas, sea level surfaces and the problem of coastal subsidence, xiii

K

Kennelly, A. C., equiangular spiral polygons as presenting themselves in electrical engineering, 326, xi

Kienholz, A. R., beach vegetation in the Philippines, vii
Kinetic theory of gravitation, 207

L

Langley, Samuel Pierpont and modern aviation, 79, xiv
Lapps, study of, 321
Learning, growth and, 54
Lenher, Victor, quantitative determination of selenium and tellurium, 33, x
Leverett, Frank, pleistocene glacial stages, were there more than four? 105, xii
some remarkable lobations of the ice-border in Eastern Pennsylvania, xv
Librarian, appointment of, v
Lintz basalt, estimate of rate of heat generation in, 225
Long-range weather forecasting, present status of, 1, ix

M

McDaniel, Walton B., elected councillor, xii
MacDougal, Daniel T., permeability and growth of century-old plants, vii
Macchia, Mediterranean, 56
Man, cradle of, 150
human differentiation, of, 151
neanderthal, 151
old races of, 153
origin, 150
postglacial, differentiation of, 152
Mason, William S., presentation of Frankliniana by, vi
Mead, Charles W., prehistoric Peruvians, 141, xiv
Mediterranean garigue and macchia, 56, viii
Meetings of 1926, minutes of, v
Members admitted:
Blakeslee, Albert F., ix
Cadwalader, John, Jr., xv
Eglin, William C. L., xv
Gest, William P., xv
Leuschner, Armin O., xi
Leverett, Frank, xi
Scott, John M., xiv
Stebbins, Joel, ix
deceased:
Appleton, William Hyde, xiv
Eliot, Charles William, xv
Hays, I. Minis, vi
Hutchinson, Emlen, xv
Kemp, James Furman, xv
Newbold, Wm. Romaine, xv
Nipher, Francis E., xv
Members deceased:
Onnes, Heike Kamerlingh, vi
Postgate, John Percival, xiv
Skinner, Henry, xiv
Smith, Allen J., xv
Smock, John C., xiv
Straus, Oscar, xiv
elected: acceptance of, xiv
Bailey, Irving W., xii
Beck, James M., xii
Bliss, Gilbert Ames, xii
Cadwalader, John, Jr., xii
Dixon, Roland Burrage, xii
Eglin, William Charles Lawson, xii
Gest, William P., xii
Hughes, Charles E., vii
Leith, Charles Kenneth, xii
Modjeski, Ralph, xii
Riddle, Oscar, xii
Scott, John M., xii
Swann, William F. G., xii
Taylor, Henry Osborn, xii
Whitehead, Alfred North, xii
Merrill, George P., the present condition of knowledge on the composition of meteorites, 119, xiii
Metabolism of uric acid, 192, viii
Metallic germanium, preparation of, studies on, 15
Metallographic examination of germanium, 26
Meteorites, annual falls of, 128
average composition of, 127
geographic distribution of, 129
in North America, 129
iron, average composition of, 124
gases in, 123
present condition of knowledge on composition of, 119, xiii
stony, average composition of, 125
gases in, 123
Mexico, mixed types of, study of, 323
valley of, Aztecs and their predecessors in, 245, xiv
Miller, John A., elected secretary, xi
Millikan, cosmic rays, universal atomic volcanism and, 161
the last fifteen years of physics, 68, ix
Minutes of meetings of 1926, v.
Mitchell, S. A., the flash spectrum observed at the 1925 eclipse, 98, x
Montagnias-Naskapi group, north of the St. Lawrence, 274
Moore, George T., accurate identification of wind-borne pollens for diagnostic tests in hay fever, viii
Morocco, mixed types of, study of, 322
Morse, Withrow, metabolism of uric acid, 196, viii
Mulatto families, study of, 320

Müller, John Hughes, further studies on allotrophy of germanic oxide, 183, x
on the preparation of metallic germanium and the volatility of the metal in hydrogen and in vacuo, 15

N

Neurological problems, a new approach to, 55
Neurones, association, progressive mechanization of, 53
functional, growth of, integrity of organism and, 52
and it relation to development of behavior, 51, ix
Norfolk Islanders, study of, 318
Nuclear atom, discovery of, 70
Nucleus, discovery of quantum jumps inside the, 76
Nullipore *versus* coral in reef-formation, 136, viii
Nuttall, Zelia A., the Aztecs and their predecessors in the valley of Mexico, 245, xiv

O

Obituary notice of I. Minis Hays, *iii*
Œnothera biennis Linnæus in England, history of, 349, 351
grandiflora Solander in England, history of, 349, 358
Lamarckiana of de Vries in England, history of, 349, 361
origin of, problem of, 371
Officers elected, xi
Osborn, Henry F., elected vice-president, xi

P

Palæspis Americana Claypole, 261
bitruncata Claypole, 264
structure of, 256, xiii
Pallasites, average composition of, 125
Parker, George H., life of the nerve cell, vi
Paton, Stewart, prerequisites of mind, ix
Pepper leaves, puzzling, 64
Peridotites, terrestrial, average composition of, 125
Peruvians, prehistoric, 141, xiv
Physics, the last fifteen years of, 68, ix
Pike, Edwin Frederic, further studies on the preparation of metallic germanium and the volatility of the metal in hydrogen and in vacuo, 15
Piper amalays, 65
subpanduriforme, 65
callosum, 65
unguiculatum, 65
Pitcairn Islanders, study of, 318
Pithecanthropus, brain cast of, exhibition of, v
Planets, internal heat of, 225
Pleistocene glacial stages, 105, xiii
President elected, xi
Principle of relativity, discovery of, 70
Pteraspidæ family, fossil fishes belonging to, 256

Q

Qualitative analysis of complex mixtures of selenium and tellurium, 37
Quantitative determination of selenium and tellurium, 33
Quantum mechanics, discovery of, 70

R

Race mixtures, progress in study of, with special reference to work carried on at Harvard University, 312, xiii
Radio-activity, discovery of, 70
observed generation of heat cannot possibly be due to, 227
Relativity, principle of, discovery of, 70
Relativity-doublets, discovery of failure of relativity explanation of, 77
Richards, Alfred N., further contribution to the mode of regulation of urine formation, x

S

Saville, Marshall H., cultures of Northwestern South America and their relations to Central America, xiv
Schaeffer, J. Parsons, problem of an individual anatomy in man, xv
Scott, William B., Isthmus of Panama as controlling the animal life of North and South America, v
William Berryman, presentation of portrait of, xiii
Sea-level surfaces and the problem of coastal subsidence, xiii
Secretaries elected, xi
Selenium and tellurium, complex mixtures of qualitative analysis, 37
quantitative determination of, 33, x

Setchell, William Albert, nullipore *versus* coral in reef-formation, 136, viii
Shull, George H., self-sterility, cross-fertility and cross-sterility in shepherd's purse, vii
Smith, Edgar F., tungstates, x
Snyder, Monroe B., prediction of the spectrum of the cosmic rays, 375
Universal atomic volcanism and the Millikan cosmic rays, 161, vi
and the ultimate atom, 171, ix
Southeastern Alaska, geology of, xii
Speck, Frank G., culture problems in northeastern North America, 272 ix
Spectral lines, discovery of meaning of, 72
Spectrum of cosmic rays, prediction of, 379
Sphaerocarpos, transmission of vegetative character in, 83
Sudan, peoples of, study of, 323
Sun, heat of, 230
Symposium on Early American Civilizations and their Relation to One Another, xiii

T

Taylor, Hugh S., mechanisms of chemical reactions, 90 viii
Tellurium, quantitative determination of, 33, x
Temperature sensations, 131, viii
Terrestrial peridotites, average composition of, 125
Tozzer, Alfred M., Maya civilization and its relation to the surrounding cultures, xiii, xiv
Treasurer elected, xi
Trelease, William, some puzzling pepper leaves, 64, vii
Tungstates, x

U

Ultra-violet rays, physiological action of, 202, ix
Uric acid, metabolism of, 196, viii
Urine, formation of, mode of regulation of, x

V

Veblen, Oswald, elected councillor, xii
Vice-Presidents elected, xi
Volcanism, universal atomic, Millikan cosmic rays and, 161
ultimate atom and, 170, xi

W

Wabanaki group south of the St. Lawrence, 282
Walcott, Charles D., elected president, xi
Samuel Pierpont Langley and modern aviation, 79, xiv
Ward, Robert DeC., present status of long-range weather forecasting, 1, ix
Weather forecasting, long-range, present status of, 1, ix
Wilson, William P., elected curator, xi

X

X-rays, discovery of, 70
